

# BAKE SALE

FOR NO KID HUNGRY

## Tips for hosting a virtual Fundraiser

**Donations.** Ask for donations ahead of time, to make your bake sale as contactless as possible. This way you know exactly what everyone's order will be, they can donate directly to your fundraising page and you won't have to worry about going to the bank to get change. It's a win-win.

**Location.** Think about what will make you and your guests comfortable. Whether it's hosting in a park with open air, having people drive by and pick up from a set location, or even try making it a little extra special for people and doing a door delivery right to their home!

**Create a menu.** Create a menu for your customers in advance, email it to them ahead of time so they can let you know what they'd like to purchase. This will help you so you will know exactly how many cupcakes or cookies you will need to make and will also hopefully save you time.

**Prepackage.** This is always a highly recommended tip. Prepackaged food will limit the touching of the baked goods and will make it easier when putting together peoples orders.
